OK all you Mudhax, here's the lay out for that all-important qualifier. For those of you that don't know, we're entering TWO Mohawk squads - a top team and (we hope) an equally brilliant second team. Here's the competition :

POOL A: Mohawks I , Empty Hand , England Womens' II
 Skunks (Southampton) I , Skunks II

POOL B: Mohawks II , Hombres II (aka The Chicos)
 Bad Company , London Transport II , Lurkers II
 Haggis (Scotland's only ultimate team)

Those of you that have played tournaments before will notice that the Mudhax II are set for a pretty tough time in pool b. On the luck of the draw, Mudhax I find themselves in a cruisin' group, though Skunks I are likely to give us a hard time with their experience and several strong players.

For those not so familiar with the above teams, here's my (very biased) opinion on their relative merits :

Hombres II - as we all know, the Hombres are pretty shit-hot. Once upon a time the Chicos were evenly matched with the Mohawks, but these days it's gonna be TOUGH.

Bad Company - aka Bad ATTITUDE. These youngsters make up virtually the whole of the England Youth Team - beware ! Outdoors they're pretty spectacular - layouts every other pass. However, we held them to a draw at Colchester, but they certainly made us work for it... Oh yes, they've got SERIOUS attitude problems. Stay calm and let them wallow in their own frustration.

London Transport II - Mohawks versus L.T has always meant a CLOSE match. Their second team is likely to be quite strong, but generally an unknown entity.

Haggis - A totally unknown quantity (born and bred as Scotland's only disc team), never seen to play down here in Sassenach Land. The founding member, an ex-Lurker called Chris is a brilliant guy. At Colchester he rumoured TWO playing Americans and a Norwegian (?).....

Lurkers II - Nick White's old team. UUUuummmm. Better be careful here. Without Andy Bateson and Simon Harry, who are surely leading their first team, Lurkers II may be the proverbial headless chicken. BUT they've got a fuck of a lot of experience. Respect for the old boys.

Mohawks Check-List :

Here's the provisional teams for the Oxford Tournie :
(and it really IS provisional - places depend on performance
/ attendance between now and Feb. 12. Fuck that sounds official ...)

Mohawks I - Capt. Conor, Nick W., Stuie, Pete
Jamie , Ali , Kenny , Ingo

Mohawks II - Capt. Steve , Tyson , Vic ?, Martin
Emily , Sue , Mike , Tom , Ian , Andy

There are bound to be people dropping out between now and the big day,
so re-shuffles will probably be necessary. Bear with the Politburo on
that one.

T-Shirts

Yo ! Yes I'm afraid it's t-shirt time again. Out of the 26 I got
printed, only FOUR remain. This is probably your last chance to own a
piece of UK disc-history. OK, so I know you've already got one (or, in
G.'s case, FIVE), but we need to sell sell SELL (sorry, been watching
too much Wall Street). The sooner we clear the last lot, the sooner we
can reap the harvest for the Club funds.

So come on everybody, you just KNOW your aunty Ethel would just LUURV

AMAZING WORLD OF FRISBEE FACTS

Hello boys and girls. Let's start with a quiz. Hands up all of those
who can name the country that tried (and failed - Ed.) to turn the
noble art of frisbee into a weapon of war. CORRECT ! America
For, BELIEVE IT OR DON'T, in 1969, the American Navy spent \$400,000
moulding frisbees into battlefield flares to be dropped from
aeroplanes. Gives a new meaning to the phrase "A long bomb into the
end-zone", don't you think ? (ho ho, very satirical)

.....
Another amazing fact from the crazy world of frisbee frolics. DID YOU
KNOW (I bet you fuckin' didn't !!) that in 1970 Geoffrey Wong, self-
exiled potentate of the island of Yanuca (you know the one, it's
surrounded by water) declared frisbee the national sport of the
country.

OR....

DID YOU KNOW that in Zaire there are 8 Ultimate teams AND (and this
is the crazy part) NO-ONE KNOWS HOW THEY GOT THERE !! (not even Nick
). Rather makes the Mary Celeste pale into insignificance doesn't it !

And now to matters of a more Mohawkian nature. We all know that the Qualifiers are coming up, so it's time to concentrate our collective socialist/communist/derranged spartacist minds on "DOING THE JOB"¹

¹(quoted from 'Norman Tebbit - my life as a complete BASTARD').

You've already been given the low-down on the opposition, but what do they have to fear from us ? (absolutely nothing ... we're losers- Ed.)

- Martin laying out in the endzone , sending shudders into the stoutest of hearts.

- The awe-inspiring power of Tyson's ...er...er... Tyson's Mini (that's an automobile for all you Transatlantic Travellers - just think of a Cadillac but MUCH smaller)

- Conor, our beloved leader, showing the disc stylee that made him All Moullescoombe Freestyle Champion TWO years in a row.

- Nick playing disc in a Indian Stylee (he was there for 6 months didn't you know ?)

- Jamie doing overhead wrist flings for NO APPARENT REASON (it's obvious - confuse and thus subvert the enemy - Ed.)

- Stuart 'Hari Krishna' Jackson, dressed like a bonzai warrior, dropping the disc a lot and shouting AAAAAAHHHH as if someone has a pair of secateurs (US translation : sharply creased golfing trousers - Ed.) to his testicles.

- A veritable BONFIRE of activity in Pete's dub-waggon.

- Kenny, our very own accountant to be (quoth the lad himself : "well it's good DOSH innit ?" - poor old Ken, sadly missed....), offering advice on tax rebates available for unnatural wear-and-tear on team kit as specified under the 1756 Local Government Act, Clause 29, Subsection C, Paragraph 10, pg.9, line 6 etc. etc. *ad nauseum*.

WELL, that's about all for now. And remember - for those of you who weren't educated at ridiculously expensive public schools :

PLAY UP AND PLAY THE GAME....

PIP PIP CHUMS,
Ali Unsound

THE BIT AT THE END :

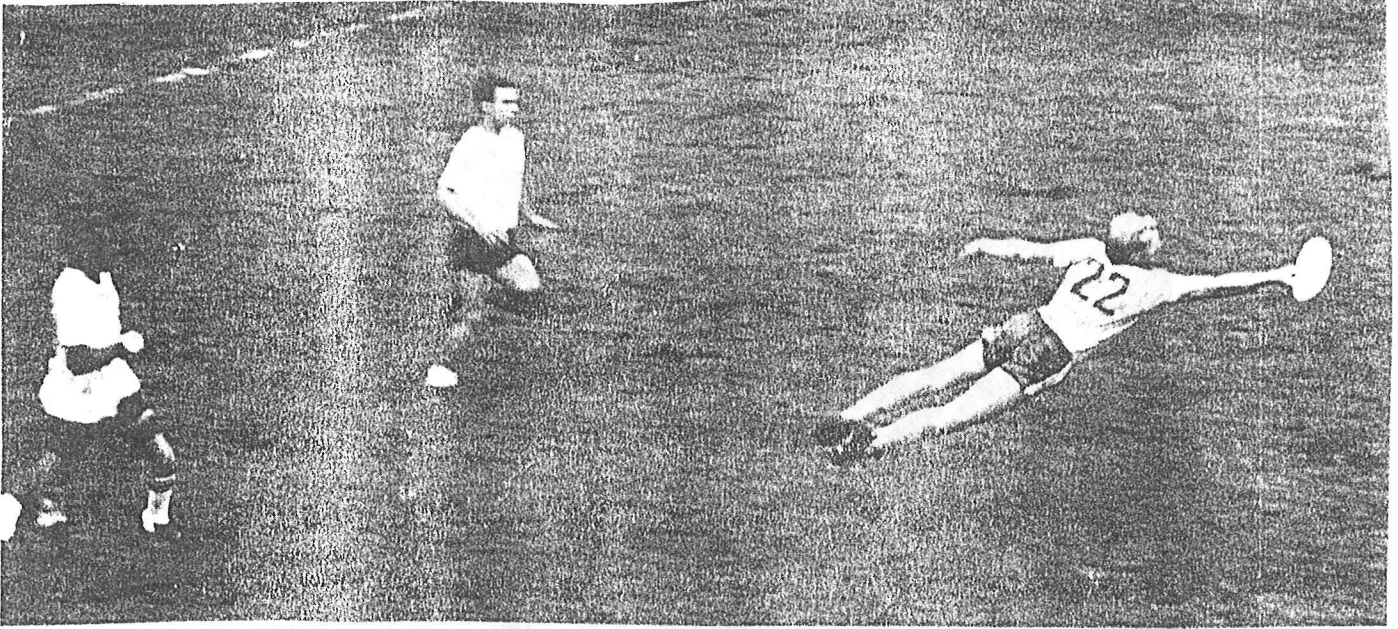

Here at Stan (the frisbee house of Brighton), worry is mounting as to Ali's overly-developed lats and pectorals... too much freestyling in front of the TV. Watch out for that behind-the-back overleg finger-spin endzone catch - he's been working on it rather a lot recently.

DISCLAIMER

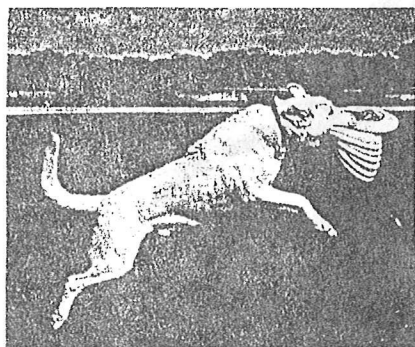

The Mohawk broadsheet wishes to emphasize that the opinions expressed in this highly dubious column are in NO WAY representative of the broadsheet, its friends, relatives, legal advisors etc. (except the nasty bits about America).

An American (there all the same, aren't they?) shows his exceptional form with a pioneering swallow-dive catch. Oz, the 'horizontal' Hombre fails to get horizontal for the point - block.

Sylvain's latest signing for the French Mohawks demonstrates the two handed catch (remember that one, Steve !)
